Project:

1. strip and remove old siding, and insulation and outer boards
2. Put on new siding and plywood under
3. Remove both windows in the back wall
4. Put in a new window in the center of the back outer wall
5. Move some wiring to put in window
6. Put in a new door

The church was so thrilled and appreciative. They provided noon meals and snacks for the workers. Thanks to the people that prepared the meal and worked along side our COM team.

The team fought rain one day and cold temperatures. They finished the project in 4 days and did a great job.

Golconda A long ways to go to the southern tip of Illinois. Thanks COM team.

They also did some indoor projects and the ventilation system has to be finished when the windows were changed out but for now it looks like a robot!!! Have to have some fun while working.

All finished!!!! Well done faithful, hardworking servants.
